Dear Debasis Baidya

I hope this email finds you well. I am writing to share the results of the recent evaluation of the Final Capstone Project that you all diligently worked on. Your hard work, creativity, and dedication throughout the project have truly been commendable, and I want to express my appreciation for your efforts.

The evaluation process has been thorough, and I am pleased to inform you that the results are now available. I have mentioned a detailed report outlining the assessment criteria, individual project evaluations, and any additional feedback provided by the evaluation team.

Final Capstone Project Detailed Score:-**Data Loading & Processing (20) - 18****Feature Engineering (20) - 18****Building and Modeling (30) - 28****Modeling LDA (10) - 8****Model Comparison, Performance Checking, & Report (20) - 16****Final Capstone Project Score (100): 88**

Remarks - The code provides a solid foundation for sentiment analysis and topic modeling. It demonstrates good practices in data loading, preprocessing, feature engineering, model building, and evaluation. The inclusion of techniques like VADER, TF-IDF, SMOTE, hyperparameter tuning, and multiple classification algorithms (including LSTM) shows a comprehensive approach. The topic modeling section is well-executed. To further enhance the project, you could expand the variety of classification models explored and provide a more structured and visual comparison of model performance metrics and model deployment.

Please take the time to review the report carefully. It provides valuable insights into the strengths of your projects, areas for improvement, and overall performance. Additionally, I encourage you to reflect on your achievements and the learning experiences gained during the project.

Once again, congratulations on completing your capstone project, and thank you for your dedication to excellence in your academic pursuits. Your hard work and commitment are truly inspiring, and I am confident that you will continue to excel in your future endeavors.

Best regards
